

D IN O 2-way tilt head

TRIPOD HEADS

D IN O silver
D IN O titan

| 2-WAY TILT HEAD | BASICBALL | QUICK-RELEASE SYSTEM
| 2-WAY TILT HEAD | BASICBALL | QUICK-RELEASE SYSTEM

PRODUCT INFORMATION

With its low weight, sensitive friction brake and integrated 360° panorama adjustment, the D IN O represents another milestone in the development of modern movable tilt heads. It's ideal for mounting spotting scope and telescopes – or any type of digital or analog video, film or photo camera.

Horizontal and vertical panning are silky-smooth. After a precision stop, the D IN O is fixed firmly with a twist of the control knob. The guide lever makes fast positioning easy. Video filers and macro specialists, in particular, will be delighted by the fantastic adjustability. The D IN O is used by thousands of birdwatchers. Panning the D IN O vertically by 90° is a quick way to switch a camera from portrait to landscape format. And lenses with a multi-position tripod mount turn this innovative 2-way tilt head into a 3-way tilt head.

D IN O is available in either titan or silver finish and is supplied with a detachable guide lever and video pin.
